Refund Processing

Approved refunds are issued to the original payment method within 5-7 business days of the returned item being received and inspected. Refunds are issued for the exact amount originally charged; currency conversion, if applicable, uses the rate in effect at the time of the original transaction, not the refund date.

Version-binding note: the policy version in effect at the time of purchase governs the return for the life of that order, even if this document is later superseded. See RET-POLICY-2026-A for the version effective 2026-02-01 onward.
